Section 8 – UPPERCASE WORKSHEETS

1. Letter Formation Worksheets

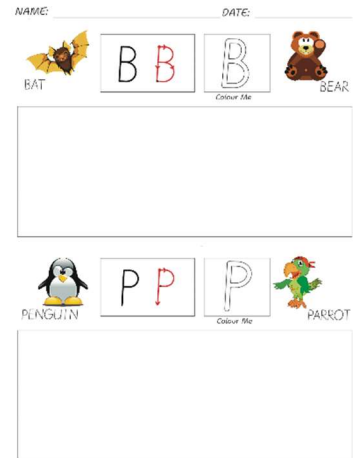

There are two sets of uppercase Letter Formation worksheets, one for Kindergarten and the other for Grade 1. The Grade 1 worksheets can be used as a refresher at the beginning of Grade 2. These worksheets are organized by letter formation groups. There are two uppercase letters on each page. The letter pairs and their corresponding letter groups are as follows:

Vertical and Horizontal Lines	E	F	Circles and Half Circles	B	P	Diagonal Lines	A	V
	H	L		C	G		K	R
	I	J		O	Q		M	W
	T	U		D	S		N	Z
							X	Y

a) Kindergarten Worksheets

There are 13 Uppercase Worksheets for Kindergarten students. Each Worksheet contains two uppercase letters and:

- a place at the top for the students to print their names and the date;
- a sample of each uppercase letter in black;
- the ductus for each uppercase letter in red;
- an outline of the letter for the students to colour; and
- a blank space below the samples for the students to practice drawing the letters.

b) Grades 1 and 2 Worksheets

There are 13 uppercase worksheets for Grade 1 and Grade 2 students.

Each Worksheet has the same information as the Kindergarten Worksheets, but two sections are below the samples instead of the blank space. These sections contain the model letter to copy, dotted letters to trace and space to practice printing the letters.

2. Letter Practice Worksheets

There are 13 uppercase letter practice pages for the Grade 1 and 2 students. Each practice page contains two uppercase letters and has:

- one row below the samples for the students to practice printing one uppercase letter; and
- a second row below the samples for the students to practice printing the second uppercase letter.

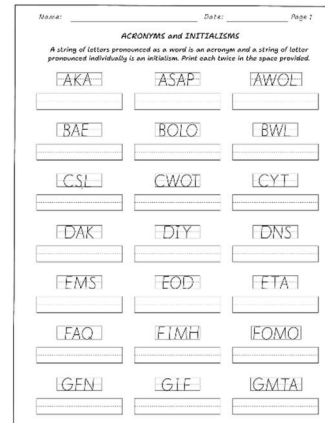

Each row has two sample letters, four to trace and space to print their letters. There are five additional rows for the students to practice these uppercase letters.

3. Acronyms and Initialisms

A string of letters pronounced as a word is an acronym, and a string of letters pronounced individually is an initialism. Acronyms and initialisms are great for practicing uppercase letters. Four pages of acronyms and initialisms are provided for each student to copy.

Three acronyms/initialisms for each alphabet letter provide 78 uppercase letter combinations. The space below each acronym/initialism allows the students to practice printing these words two or three times.

To extend this exercise to lowercase letters, a blank worksheet is included. This worksheet provides a space to write out the acronyms/initialisms and a longer area for the student to print out the meaning of the acronym/initialism. A list of the acronyms/initialisms and their meanings is included in the material. The students can also make up their own words to match the letters in whatever acronym/initialism they choose.

4. Print Animal Word Practice

There are nine pages of animal names for students to practice their uppercase letters.

Above each row, the animal's name and picture are displayed. The name is repeated on the row for students to trace to reinforce the correct letter shape and spacing.

The student then prints the animal's name in the row below each sample word.
