## Start Here

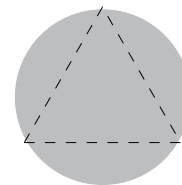

1. Punch 10 paper circles. TIP: pick colours or textures that work with your theme. To make it interesting have 2 circles in a coordinating solid colour.
2. Score each circle on the back side. Follow the dotted lines using the template. *Example 1.*
3. Fold on score lines towards patterned side. *Example 2.*
4. Put glue on the backside of tab, match up to another tab until 1 dome circle is completed (5 pieces). *Example 3/4.*
5. Take the 2 domed circles and stick glue together matching the opposite tabs. *Example 5.*
6. Punch and add a ribbon/string hanger. *Example 6.*

MAKE YOUR OWN PATTERN PAPER with calligraphy, stamping, pens or brushes.

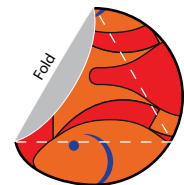

- practice your letters and fill up your sheet because my theme was christmas so I lettered a poem over and over to practice letter forms. Words or quotes are good too.
- take glitter glue, make random dabs smear streaks with a paper paddle over top of your lettering leaving transparent with no raised bumps is best. Add dots after assembles if desired.

When your paint & paper is dry you are ready to punch out your circles.
